INDEPENDENT AUDITORS' REPORT

To the Board of Directors and Management,
Workforce Development Board of the Treasure Coast, Inc.:

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities and the general fund of Workforce Development Board of the Treasure Coast, Inc., (the Board), as of and for the years ended June 30, 2023 and 2022, and the related notes to the financial statements, which collectively comprise the Board's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities and the general fund of the Board, as of June 30, 2023 and 2022, and the changes in financial position for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Board and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

The Board's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Board's ability to continue as a going concern for one year after the date that the financial statements are issued.

Auditors' Responsibilities for the Audits of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional

omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Board's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

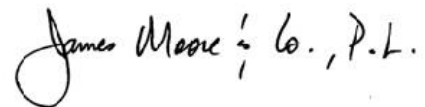

Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Board's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) is presented for purposes of additional analysis and is not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 16, 2023, on our consideration of the Board's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Board's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION & ANALYSIS
JUNE 30, 2023

This discussion and analysis of the Workforce Development Board of the Treasure Coast, Inc. (the Board) financial performance provides an overview of the Board's financial activities for the fiscal years ended June 30, 2023, 2022, and 2021. Please read it in conjunction with the Board's financial statements, which follow this section.

OVERVIEW OF THE BASIC FINANCIAL STATEMENTS

This annual report contains government-wide financial statements that report on the Board's activities as a whole and fund financial statements that report on the Board's individual fund.

Government-wide Financial Statements

The first financial statement presented is the Statement of Net Position. This statement includes all of the Board's assets and liabilities using the accrual basis of accounting. Accrual accounting is similar to the accounting used by most private-sector companies. Assets and related revenue are recorded when earned and related liabilities and expenses are recognized as incurred regardless of when cash is received or paid. Net Position, the difference between assets and liabilities, can be used to measure the Board's financial position.

The second financial statement presented is the Statement of Activities. This statement is also shown using the accrual basis of accounting. It shows the increases and decreases in net position during the fiscal year. Over time, the increases or decreases in net position are useful indicators as to whether the Board's financial health is improving or deteriorating. However, other non-financial factors, such as changes in federal and state funding, must also be considered when assessing the overall health of the Board. In these statements, all of the Board's activities are considered to be governmental activities.

Fund Financial Statements

Following the government-wide financial statements are the fund financial statements. They provide more detailed information about the Board's fund.

- Governmental Fund – The Board maintains one individual governmental fund. The General Fund is considered to be a major fund and, accordingly, is displayed separately. This fund is accounted for using modified accrual accounting. Modified accrual accounting focuses on available cash and other financial assets that can readily be converted to cash. This provides a shorter-term view of the governmental fund's financial position. A reconciliation of the governmental fund balance and net position is provided with this statement, which helps to explain the difference between the fund financial statements and the government-wide financial statements.

OVERALL FINANCIAL POSITION AND RESULTS OF OPERATIONS

Governmental Activities

In Program Year 2023, governmental activities generated \$5,946,882 in revenues and incurred \$6,015,807 of program expenses. This resulted in a \$68,925 decrease in net position. This decrease is the result of a decrease in 2023 federal grants due to timing of receiving grants. Grant revenue and expenditures have decreased as compared to Program Year 2022 primarily due to a \$1,076,460 (99.62%) decrease in COVID-19 related grant funding. The decrease in expenditures in Program Year 2023 compared to Program Year 2022 is primarily a result of the decrease in COVID-19 related funds, as well as decreased depreciation expense as a result of the termination of a lease in the current year.

In Program Year 2022, governmental activities generated \$6,937,446 in revenues and incurred \$7,000,727 of program expenses. This resulted in a \$63,284 decrease in net position. This decrease is the result of a decrease in 2022 federal grants due to timing of receiving grants. Grant revenue and expenditures have decreased as compared to Program Year 2021 primarily due to a \$1,246,893 (50.15%) decrease in WIOA Adult funds, offset by a \$684,838 (93.78%) increase in the WIOA Dislocated Worker Formula grants. The decrease in expenditures in Program Year 2022 compared to Program Year 2021 is primarily a result of the decrease in WIOA Adult funds, offset by an increase in the WIOA Dislocated Worker Formula grants expenditures, as well as an increase due to increased depreciation expense as a result of the implementation of GASB Statement No. 87.

THE BOARD'S INDIVIDUAL FUND

General Fund

The General Fund receives its funding under cash advance and cost reimbursement contracts. If at the end of the fiscal year, an advance is not sufficient to cover applicable expenditures, a receivable is created. If an advance is in excess of applicable expenditures, a refundable advance is reported. Consequently, revenues will generally equal expenditures with a small profit due to charges for services not funded by grants. The fund balance represents amounts received prior to the Job Training Partnership Act (JTPA) from performance grants and other charges for services.

The \$1,959 decrease in fund balance for Program Year 2023 was a result of revenues generated by the Boards' charges for services and nonfederal funding Programs in deficit of related expenditures.

The \$16,504 decrease in fund balance for Program Year 2022 was a result of revenues generated by the Boards' charges for services and nonfederal funding Programs in deficit of related expenditures.

Budgetary Highlights

The Board is not legally required to adopt a budget. As such, budgetary exhibits are not presented.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The Board's capital assets consist of computer equipment, office equipment, improvements, and vehicles needed to support the One-Stop Centers in its local workforce development area (LWDA20). Two vehicles are mobile units, which are currently being used as Mobile One-Stop (Resource) Centers in Martin and Indian River Counties.

Capital assets, primarily consisting of computers, communication equipment, vehicles, leasehold improvements, leased printers, and leased building facilities decreased by \$474,103 in 2023 due to termination of one building lease in the current year, did not increase in 2022, and increased by \$4,500,650 in 2021 due to the implementation of GASB No. 87. For the years ending June 30, 2023, 2022, and 2021, depreciation was \$481,857, \$640,364, and \$627,547, respectively. At June 30, 2023, 2022, and 2021, accumulated depreciation was \$1,882,122, \$1,890,206, and \$1,263,524, respectively. Capital retirements of older, similar assets were none in 2023, 2022, or 2021. These assets were fully depreciated at the time of disposal.

Debt Administration

With the implementation of GASB Statement No. 87, *Leases*, the Board had the following lease liability outstanding at June 30, 2023, 2022, and 2021: \$3,007,975, \$3,411,971, and \$3,962,267, respectively.

ECONOMIC FACTORS

Ninety-six percent (95%) of the Board's revenues were generated from federal grants, all of which were passed through the State of Florida's Department of Commerce. Anything that could influence federal and state appropriations of these funds will have a direct impact on the Board.

WORKFORCE DEVELOPMENT BOARD OF THE TREASURE COAST, INC.
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2023 AND 2022

(1) **Summary of Significant Accounting Policies:**

The following is a summary of the more significant accounting policies of Workforce Development Board of the Treasure Coast, Inc. (the Board), which affect significant elements of the financial statements:

(a) **Reporting entity**—The Board was organized on September 26, 1983 as a private non-profit corporation to develop workforce skills to meet current and future demands in Indian River, Martin, and St. Lucie counties within the State of Florida. Workforce development prepares individuals for work through secondary and post-secondary education, employer-sponsored training for incumbent workers, and special public programs for the poor and unemployed. The Board receives its funding from federal and state grants passed primarily through the Florida Department of Commerce.

The accounting policies adopted by the Board conform to accounting principles generally accepted in the United States of America as applied to not-for-profit organizations reporting using the governmental model. As required by generally accepted accounting principles, the financial statements of the reporting entity include those of the Board (the primary government). There were no entities that required inclusion as a component unit within the Board's financial statements.

(b) **Government-wide and fund financial statements**—The government-wide financial statements (the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the Board. Governmental activities are reported separately from business-type activities, which rely on fees charged to external parties as their primary revenues. The Board has no business-type activities.

The Statement of Net Position reports the Board's financial position as of the end of the fiscal year. In this statement, the Board's net position are reported in two categories: investment in capital assets and unrestricted net position.

The Statement of Activities is displayed using a net-cost format and reports the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Indirect costs are included in the program expense reported for individual functions and activities. Program revenues include (1) charges for services that are directly related to a given function and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for the general fund, which is the Board's only fund.

WORKFORCE DEVELOPMENT BOARD OF THE TREASURE COAST, INC.
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2023 AND 2022

(1) **Summary of Significant Accounting Policies:** (Continued)

(c) **Measurement focus and basis of accounting**—The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Board considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The Board considers most revenues, such as reimbursement-based grant revenues and charges for service, to be susceptible to accrual and so they have been recognized as revenues in the current fiscal period. Other revenue items are considered to be measurable and available only when cash is received. When both restricted and unrestricted resources are available for use, it is the Board’s policy to use restricted resources first, then unrestricted resources as they are needed.

Major Governmental Fund—The sole governmental fund used by the Board is the general fund, which is used to account for all financial activity of the Board.

(d) **Cash and cash equivalents**—Cash and cash equivalents of the Board are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

(e) **Grants and other receivables**—Grants and other receivables consist of amounts due from grantor agencies for reimbursement of expenditures under various programs. Management has concluded that realization of losses on balance outstanding at year-end will be immaterial.

(f) **Capital assets and depreciation**—Capital assets are defined by the Board as assets with an initial, individual cost of \$5,000 or more and an estimated useful life of more than one year. Such assets are recorded at historical cost. Donated capital assets are recorded at estimated acquisition value at the date of the donation. The Federal Government has a reversionary interest in those assets purchased with its funds which have a cost of \$5,000 or more and an estimated useful life of at least one year. Depreciation of capital assets is computed using the straight-line method over estimated useful lives as follows:

Assets	Years
Leasehold improvements	30
Equipment	5–10
Vehicles	5

(1) **Summary of Significant Accounting Policies:** (Continued)

(g) **Unearned revenues**—Unearned revenues are comprised of amounts received from grantor agencies by the Board prior to meeting revenue recognition criteria. In subsequent periods, when the revenue recognition criteria have been met, the liability for unearned revenues is reduced and revenue is recognized.

(h) **Prepays and other assets**—Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepays in both the government-wide and fund financial statements.

(i) **Indirect costs**—The Board receives funds from several sources. Accordingly, indirect administrative and program support costs are allocated between the various programs in the following manner: Indirect administrative costs and indirect program support costs, including indirect salary costs, are charged to either an administrative or program cost pool and allocated to all programs including WTP, WIOA youth, WIOA adult, and WIOA dislocated workers contracts based on each program's direct program costs. Indirect occupancy costs are charged to a cost pool and allocated to all programs based on each program's direct program costs. Indirect occupancy costs are charged to various funding sources or indirect costs pools based on FTE's determined by bi-weekly personnel activity reports. The allocation ratios are determined based upon each program's percentage of total time charged by staff.

(j) **Budgets**—The general expenditure authority of the Board, as provided by Sections 445.004 and 445.007 of the Florida Statutes, does not require a legally adopted budget placed into public law. Accordingly, the budgetary comparison schedules for governmental funds have not been presented as supplementary information required by the Governmental Accounting Standards Board.

(k) **Income taxes**—The Board is exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code, except for taxes on unrelated business income. Since the Board had no taxable unrelated business income during the years ended June 30, 2023 and 2022, no provision for income taxes is provided in the financial statements.

Management of the Board considers the likelihood of changes by taxing authorities in its filed income tax returns and recognizes a liability for or discloses potential significant changes that management believes are more likely than not to occur, including changes to the Board's status as a not-for-profit entity. Management believes the Board met the requirements to maintain its tax-exempt status and has no income subject to unrelated business income tax, therefore no provision for income taxes has been provided in these financial statements. The Board's income tax returns for the past three years are subject to examination by tax authorities, and may change upon examination.

(1) **Summary of Significant Accounting Policies:** (Continued)

(l) **Fund balance**—In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the Board is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Those classifications are as follows:

Nonspendable—Amounts that cannot be spent either because they are not in a spendable form or because they are legally or contractually required to be maintained intact.

Restricted—Amounts that can be spent only for specific purposes because of the Bylaws, state or federal laws, or externally imposed conditions by grantors or creditors.

Committed—Amounts that can be used only for specific purposes determined by a formal action by ordinance or resolution.

Assigned—Amounts that are designated by the Board of Directors for a specific purpose but are not spendable until a budget ordinance is passed by the Board of Directors.

Unassigned—All amounts not included in other spendable classifications.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the Board considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the Board considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Board of Directors has provided otherwise in its commitment or assignment actions.

(m) **Leases**—The Board leases printers and building facilities, and determines if an arrangement is a lease at inception. The Board recognizes intangible right-to-use (RTU) assets and corresponding lease liabilities for all leases that are not considered short-term. RTU assets represent the Board's right to use an underlying asset for the lease term and lease liabilities represent the Board's obligation to make lease payments arising from the lease. RTU assets and liabilities are recognized at the lease commencement date based on the present value of lease payments over the lease term.

Basis of lease classification – Leases that meet the following requirement will not be considered short term: the maximum possible lease term(s) is non-cancelable by both lessee and lessor, and is more than 12 months, and (2) the present value of lease payments for the lease is less than \$5,000.

Discount Rate – Unless explicitly stated in the lease agreement, known by the Board, or the Board is able to determine the rate implicit within the lease, the discount rate used to calculate lease right-to-use assets and liabilities will be the Board's incremental borrowing rate (IBR), which will be the rate utilized for the subsequent fiscal year. The District's IBR was 2.38% at June 30, 2020, and was the discount rate utilized for applicable leases beginning July 1, 2021 and applicable lease conversions.

The Board's lease agreements do not contain any material residual value guarantees or material restrictive covenants.

(5) **Changes in Long-term Liabilities:**

Employees are entitled to vacation and sick leave according to the Board's policies. Annual vacation is accrued based on completed years of employment with the Board. Upon resignation, death, termination or retirement, employees are paid in one lump sum for accrued vacation as of the last day of employment. A maximum number of hours equivalent to the potential annual vacation leave the employee may accrue according to the Board's policies may be carried over from one year to the next year. Accrued vacation leave in excess of what may be earned in a year will be forfeited. There is no liability for accumulated sick days since the Board does not have a policy to pay any amounts when employees separate from service with the Board. This liability for compensated absences is included in accounts payable and accrued liabilities on the statement of net position, and the general fund is used to satisfy compensated absences and lease liabilities. Compensated absences payable activity and lease liability activity for each of the last two years is as follows:

2023					
<u>Governmental Activities</u>	<u>Beginning Balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>Ending Balance</u>	<u>Due Within One Year</u>

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2023 AND 2022

(6) Retirement Plan:

The Board implemented a Safe Harbor 401(k) plan with an effective date of July 1, 2011, which covered employees, over 21 years of age, with a minimum of one year of service, and who worked 1,000 hours during the plan year. The plan allowed for a maximum matching contribution of 4% during 2023 and employees may make salary deferrals beginning after three months of employment. For the year ended June 30, 2023 and 2022, the Board contributed \$60,786 and \$66,716 to the plan, respectively.

(7) Risk Management:

The Board is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the Board carries commercial insurance.

(8) Concentrations of Credit Risk and Significant Funding Source:

(a) **Cash and cash equivalents**—As of June 30, 2023 and 2022, the Board had demand deposits with one financial institution of \$823,155 and \$801,851, respectively. The Board has no policy requiring collateral or other security to support its deposits, although all demand deposits with banks are federally insured up to FDIC limitations. The demand deposits with the financial institutions are insured up to \$250,000. At June 30, 2023 and 2022, the Board had \$573,155 and \$551,851 in excess of FDIC coverage, respectively.

(b) **Grants and other receivables**—The Board's receivables are for amounts due under contracts with the State of Florida and Federal government agencies. The Board has no policy requiring collateral or other security to support its receivables.

(c) **Significant funding source**—During the years ended June 30, 2023 and 2022, the Board received approximately 95% and 96%, respectively, of its funding from the United States Department of Labor, the United States Department of Health and Human Services, and the United States Department of Agriculture passed through the Department of Commerce. If a significant reduction in the level of this funding were to occur, it could have an adverse effect on the Board's program and activities.

(9) Contingencies and Uncertainties:

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the Federal government and the State of Florida. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the Board expects such amounts, if any, to be immaterial.

(10) **Related Parties:**

The Board of Directors includes representation of both the private and public service industries as required by Florida Statutes. The Board had transactions with entities with which certain board members are associated for the purpose of providing training services to participants and temporary labor. During the year ended June 30, 2023 and 2022, total payments to these entities were \$259,433 and \$427,363, respectively. At June 30, 2023 and 2022, \$1,643 and \$55 were payable to these entities, respectively. The transactions were approved and authorized in accordance with the Board's purchasing policies and procedures.

COMPLIANCE SECTION

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS***

To the Board of Directors and Management,
Workforce Development Board of the Treasure Coast, Inc.:

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to the financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and the general fund of the Workforce Development Board of the Treasure Coast, Inc., (the Board) as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Board's basic financial statements, and have issued our report thereon dated October 16, 2023.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Board's internal control over financial reporting (internal control) as a basis for designing procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control. Accordingly, we do not express an opinion on the effectiveness of the Board's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

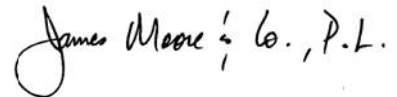

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Board's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH THE UNIFORM GUIDANCE

To the Board of Directors and Management,
Workforce Development Board of the Treasure Coast, Inc.:

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the Workforce Development Board of the Treasure Coast, Inc.'s compliance with the types of compliance requirements identified as subject to audit in the U.S. *Office of Management and Budget (OMB) Compliance Supplement* that could have a direct and material effect on each of the Board's major federal programs for the year ended June 30, 2023. The Board's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, the Board complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2023.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); the special audit guidance provided by the State of Florida Department of Commerce; and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Board and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the Board's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the Board's federal programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Board's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, the special audit guidance provided by the State of Florida Department of Commerce, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Board's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, the special audit guidance provided by the State of Florida Department of Commerce and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Board's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Board's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

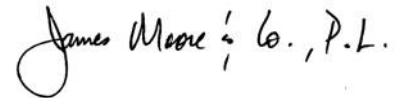

Report on Internal Control over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
